

The 3-Year nursing curriculum is indicated below. Students must already have all 11 nursing prerequisites completed in order to begin the nursing curriculum. Students who have a conferred BS/BA degree are only required to complete the nursing curriculum outside of the nursing prerequisites. Those without a BS/BA degree will need to incorporate university LEP requirements to their plan of study. Plan of study involves evening and weekend nursing courses.

Fall	Credits
NUR340 Theoretical Found. for Prof. Nursing ^a	3
NUR343 Integrated Patho/Pharm I ^c	3
