

YALE START-UP

# SupercoolMetals

SEEKING

Machinist/Processing Engineer/Technician

Yale start-up, Supercool Metals, located in New Haven, CT is seeking a machinist/processing engineer/technician. Supercool Metals is focusing on processing of metallic glasses, a new class of metals that can be processed like plastics. We are looking for skills in machine building and design, CAD, processing, automatization, and general machining and technician skills. Full-time or part-time can be considered.

You will be involved in developing an innovative technology for metal processing and manufacturing components for a wide range of applications in watches, electronics, aerospace and biomedical areas. Supercool Metals is a young and dynamic company with many growth opportunities for its employees.

Please contact Evgenia Pekarskaya, [evgenia@supercoolmetals.com](mailto:evgenia@supercoolmetals.com) with applications.
