

SCSU IBC Fall Meeting 2022
November 17th 12 pm- 1 am via Teams

Attendance: Maren Schniederberend, Mikolaj Salkowski, Helen B. Keegan, Ed Gleason, James Kearns, Todd Ryder

Quorum was met

Meeting began at: 12:00 pm

Agenda

1. Discussion: What is the protocol for submitting Dr. Michael Fisher's proposal? Everything he is working with is exempt according to Ed Gleason.
2. The goal should be to get Dr. Fisher's proposal ("**Dr. Fisher's Title Here**" 2022_01) in front of the IBC committee. Dr. Fisher is requesting *E. coli* IM08B, is a K12 derivative (overall category initial strain) of this DH10B (subcategory derived from K12).
3. There was a discussion about Dr. Fisher's proposal. This is exempt from the NIH guidelines and exempt from IBC.
4. He is using less than half a liter of volume. No biosafety fume hood. IACUC (Institution of Animal Care University Committee). Are not needed What are the plasmids or inserts being used for? Is he using SARS-COVID2 that would violate the exemption? Pep vector for overexpression of a gene.
5. Other items: An approval letter will be sent by the IBC to Michael Fisher signed by myself (James Kearns) and Ed Gleason.
6. **The vote for the protocol was tabled pending more information from the PI.**

Meeting adjourned at: 1:00 pm
