

Technology Committee (TC)

Faculty Senate Technology Committee

Minutes of meeting 11/17/2021

The meeting convened at 12:15 via Zoom.

The discussion about Student Opinion Surveys continued.

Senate President Weiss had asked us to develop a resolution clarifying the policy for routing of Student Opinion Surveys now that they are conducted electronically. FSTC Chair Fields presented a draft resolution reflecting the consensus from our last meeting that simultaneous routing of the SOS results to the Faculty member and their department chair or program director should be the policy. After a very productive discussion, a much-improved resolution was crafted which is in the packet for action on 12/1/2021.

We then returned to discussing ways to incentivize students to complete the SOS. A sentiment was expressed that perhaps this was an issue better dealt with by an administrative office rather than by faculty. We quickly crafted a second resolution effectuating that notion which is also in the packet for 12/1/2021.

Meeting adjourned at 1:30.

Respectfully,
J. E. Fields
