Finance Committee members have been meeting to discuss resubmitting last year's resolution temporarily increasing the contractual travel reimbursement levels for both FT and PT faculty.

The provost has suggested some of the funds be set aside to support student travel associated with scholarship and research.

The AAUP has said that is not possible under the CBA. The Executive Committee agrees. There is great support for assisting students. However, funds cannot come from faculty travel accounts.

A request for additional information has been submitted to Accounts Payable and the Travel Office.
