

Dual Program Enrollment Form

Graduate students who are interested in registering for a certificate program, in addition to their primary degree program, may request dual enrollment. Both program coordinators must approve a dual enrollment request.

Instructions

Visit our list [graduate-level certificates](#) to review program requirements and financial aid eligibility. Certificate programs/courses listed as ineligible for aid will only count towards your financial aid enrollment status if the course also fulfills one of your degree requirements. This form must be signed by all parties and approved no later than the second week of the semester in which the student's certificate program shall be completed.
