

GlobalProtect VPN Installation – iOS

Introduction	1
Installation	1

Introduction

In this guide you will find information on how to install the GlobalProtect VPN software on an iOS device through the AppStore. This will allow access to the university network while off the campus network.

Installation

1. Open the App Store.

2. Search for "GlobalProtect", select the app, and install.

3. Once installed, open the app. Enter the portal address "mfa.southernct.edu", then "Connect".

GlobalProtect

What's your portal address?

remote.southernct.edu

4. Select "Allow" on the pop-up asking for permission to add a VPN configuration.

5. Use touch ID or your passcode to confirm.

6. Log in using your full SCSU email address and password.

Southern Committeet	Southern Conversion
Sign in	← otusowl@southernict.edu
NetiD@southerrict.edu	Enter password
Can't access your account?	*******
Sign-in options	Forgot my password

7. Authenticate your account.

I	Southern Internetient an United
En	ter code
	We texted your phone +X XXXXXXXXXXXX Please enter the code to sign in.

8. You will now be connected.
