

Teams: Install – Windows (University device)

Introduction	1
Installation Process	1

Introduction

This guide will walk you through how to install Microsoft Teams on a university-issued Windows device.

Installation Process

1. Open the start menu and search for "Software Center" using the search bar in the lower, right-hand side and open the app.

2. Scroll to locate the software "Microsoft Teams - Install ", click to check the box beside it, and click "Install Selected" to download the app.
