

Microsoft Azure for Education: Software Installation

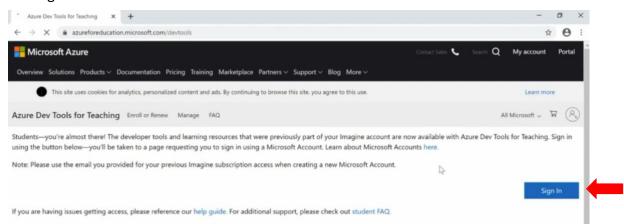

Introduction	. 1
Installation	. 1
Popular software available	. 6

Introduction

Microsoft Azure Dev Tools for Education provides a no cost option that allows students, faculty, and staff to install Microsoft software on personal devices for instructional purposes.

Installation

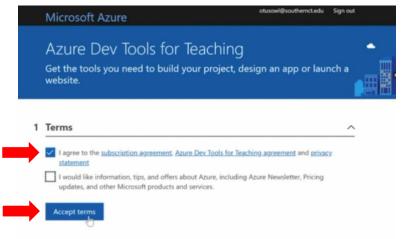

- 1. Go to: http://azureforeducation.microsoft.com/devtools
- 2. Select "Sign In".

3. Sign in with your full SCSU email address and password, and authenticate your account.

Microsoft Sign in	S Connecticut Same University	Southern Convention Convention otusowl@southernct.edu
Signin	← otusowl@southernct.edu	
Email, phone, or Skype	Enter password	Enter code
No account? Create one! Can't access your account?	Because you're accessing sensitive info, you need to verify your password.	We texted your phone +X XXXXXXXXXXXXX6. Please enter the code to sign in.
Sign in with a security key ⑦	I	Code
Back Next	Forgot my password	Having trouble? Sign in another way
	Sign in	More information

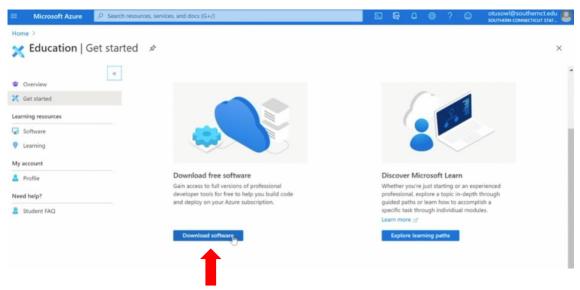

4. Review the terms of service, select the checkbox to agree, and select "Accept terms".

5. Select your account if shown or log in once more.

6. Scroll down and select "Download software".

7. Scroll to explore the full list of available downloads or use the search bar to look for a specific item. See the next section which lists some popular software available here. We will be using Microsoft Project 2019 as an example of a download and install.

11. Some software may auto-download and run the installer package. Here, we will need to select the installer titled "Setup".

12. Once finished installing, close the window and select the Start Menu to find and open the newly installed software.

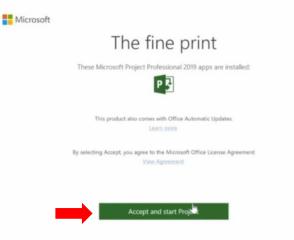

13. Some software may require a product key to begin using. This can be found on the download website.
