

Remote Desktop Connection - Windows

Introduction	1
Prior requirements	1
Remoting to a University-Issued Device	1

Introduction

In this document you will find instructions on how to connect to your university-issued Windows desktop remotely.

Prior requirements

Please make sure you have the following prior to attempting to intiating a remote connection:

- 1. Permissions to do so, set by the IT department.
- 2. GlobalProtect VPN software installed and connected.
- 3. The full name of the computer that you wish to connect to.

Remoting to a University-Issued Device

1. Open the Start Menu and search for the app "Remote Desktop Connection".

2. Open the app, enter the full computer name, and click "Connect".
