

## **Steps to Assist in Your Student's Career Development**

### **Year One at Southern**

- Encourage your student to meet with a career coach to understand career paths for their major in the Office of Career & Professional Development
- Empower your students to get connected on campus through a club, organization, office, or department to build a community of support

### **Year Two at Southern**

- Encourage your student to meet with a career coach to develop a professional resume and LinkedIn account in the Office of Career & Professional Development
- Empower Your Students to participate in on-campus and virtual events for professional growth and development.

### **Year Three at Southern**

- Encourage your student to meet with a career coach to develop a strategy for searching an industry-related experiences needed for after graduation in the Office of Career & Professional Development
- Empower Your Students to attend a career fair or other employment related experience

### **Year Four at Southern and Beyond**

- Encourage your student to meet with a career coach to identify their post-graduation plans and how to achieve them in the Office of Career & Professional Development
- Empower Your Students to begin the process of planning financially and professionally for life after college.
- Celebrate your student's success in graduating from Southern Connecticut State University
