

## Zoom: Install - Windows

Introduction	. 1
Installation	1

## Introduction

Zoom is a cloud-based video communications app that allows you to set up virtual video and audio conferencing, webinars, live chats, screen-sharing, and other collaborative capabilities. The following steps will walk you through how to install Zoom on a university-issued Windows computer.

## Installation

1. If working remotely, first ensure you are connected to the Global Protect VPN.

2. Open the start menu, search for "Software Center" and open.

3. Select "Zoom Client – Install", then click "Install".
