Fred Volkmar, M.D.
SCSU & Yale Child Study Center

Friday, April 17, 2020

10 AM - 12 NOON

Discussion Via Zoom

Zoom meeting log in will be sent
15 min prior to starting

Behavior and conduct issues get increasingly complicated when students with autism are involved. Though a small number of colleges students on the spectrum will have conduct issues on campus, complex social understanding can necessitate accommodations while retaining the integrity of conduct codes. This discussion will center on the nature of the issues while attempting to reconcile diverse perspectives of the ADA and Title IX.
