

SCSU CCD PEERS Virtual Program

Young Adult Social Skills program based on the UCLA PEERS program

(an evidence-based caregiver assisted social skills intervention for youth 18– 21
years old with Autism Spectrum Disorders)

**A program for young adults
with Autism Spectrum Disorders
who use spoken language and do not present
with an intellectual disability**

*Topics Include: conversational skills, dating skills, handling peer
pressure, appropriate use of humor, electronic communication,
handling teasing, bullying and disagreements with peers, and good
sportsmanship*

WHEN: Sessions will be held via a Zoom platform weekly on Monday's
from 6:00pm – 7:00pm. The first session will be on June 16th, with a
final session on July 27th. *Participant and their caregiver may attend
together but will be in different groups using the Zoom platform.*
